ROUGH DRAFT

Gentlemen:

The Central Intelligence Group is interested in the purchase or lease of an area of land on or near the western shore of the

by the

Approximately

40 acres of flat cleared land free from surrounding heavy foliage or other obstructions, and reasonable assurance that it will remain so indefinitely is required. If necessary to insure this condition for approximately 800 yards on all sides, additional acreage adjacent to the required 40 acres is desired. It is essential that the terrain to the east and south provide unobstructed vision. Property bounded by water on these sides is particularly desirable.

It is also essential that the immediate area be free from industrial plants, heavily populated areas, high tension power lines, electrical railways, arterial highways, air ports, and radio transmitters, and that it be convenient to public services such as power, heat, light, water, communications and transportation.

It is desirable, but not essential, that the area have on it a well constructed building suitable for the installation of a small amount of heavy equipment and with ample office space for approximately 30 employees.

It is highly desirable that this area be easily accessible to some 50 employees from a town or city in which they and their families would expect to live, and that it be close enough to

for ready inspection and easy simple communications.

If property meeting the above requisites, or a reasonably satisfactory compromise thereof is at your disposal, it is requested that complete information concerning the same be furnished in writing to:

Chief, [REDACTED]

FOIAb3b1

Central Intelligence Group

2430 E Street, N. W.

Washington 25, D. C.

Very truly yours,

70
